# New Warning When Modifying Present on Admission

When you attempt to change the present on admission flowsheet row, you now see a warning about what this value means, the historical documentation for this row, and the option to cancel your changes to help keep this information accurate.

# See Administration Instructions for Medication Tasks in Work List

You can now view a task's medication administration instructions in the Work List.

Carter	, Louise a		
	DOB: 6/26/195	3 Unit: EMH MED SURG Bed: MSPOOL Isolation Status: None Allergens: - Principal Problem: None Attending Physician:	Tobias Green, MD
1130	*	Administer aspirin EC tablet 81 mg Dose 81 mg : Oral : Daily Give with water. Do not crush, chew, or split.	Routine

# Discontinue Active Orders from BestPractice Advisories

To save you clicks, BPAs that suggest discontinuing orders now give you the ability to discontinue orders directly rather than going to an ordering activity.

😲 This patient has active opioid orders. Discontinue these orders if you plan to continue with your 'No Opioids' order.								
Discontinue the follo	wing orders?							
Discontinue	Keep	A oxyCODONE-ibuprofen (Combunox) 5-400 MG per tablet 1 tablet 1 tablet, Oral, Every 6 hours PRN, severe pain, Starting on Mon 7/12/21 at 1213

### **Dynamically Trend Labs and Vitals in Search**

Spotlight Cards in Search can now show on-demand trend line graphs for lab results and vitals. Use the Storyboard Search bar to create your own graph of data.

Example searches:

- Trend vitals
- •Graph a1c and weight
- •Plot bmp 3m
- •Trend bp wbc alt ast last 8 years

Click the question mark icon in search results to see additional search examples.

## New Reporting Tools for Present on Admission

Use the new report Wound Registry - Hospital Acquired Pressure Injury on Current Admission to help track wound information. The report includes tracking for whether the wound was present on admission, whether the present on admission row has been modified after initial documentation, and the type of location where the patient acquired the wound.

Wo	Vound Registry - Hospital Acquired Pressure Injury on Current Admission [59187] as of Fri 4/1/2022 1:21 PM
