INR Documentation in Remote Client

There are 3 steps to documenting the INR in Remote Client.

- Enter the orders in the Care Plan
- Enter the lab results
- Add an appt note the date the INR is due

The Care Plan Task

Select the patient from the patient list, then navigate to the Care Plan Task.

For Nurses-Select Apply Template >Search Skilled Nursing

• Select Specimen Sample>Intervention: SN/PT to Obtain PT/INR DRAW>Accept

Select Apply Template >Search Warfarin Therapy> Select appropriate Interventions> Accept.

For PTs - Search **Postsurgical**> Select appropriate Select Interventions and **SN/PT to obtain PT/INR Draw** and other interventions as appropriate.

Accept

Complete the SmartText required fields and enter the date the next INR is Due.

SN/PT TO OBTAIN PT/INR DRAW

3 records total. All records loaded.	✓ <u>A</u> ccept X <u>C</u> ancel

Enter the Collection Date, Authorizing Provider and results, then accept.

In the Care Plan Intervention- update the date of the next INR Due.

Add an Appt Note

Go to the Care Plan > Visit Sets > Schedule

- Verify that there is a visit for that date, if there is not then move a visit to the INR date due.
- Click Edit on that appointment
- Add an Appt Note stating that INR is due
