Updating the Home Health Attending Provider

January 2023

The attending provider is documented by intake staff on the Care Team Information form in Intake when the patient begins care, but once the Start of Care is documented, this field becomes greyed out and can no longer be updated.

Care Team Information

Attending provider: Dashoush, Norin

Phone: 617-427-1000 Fax:

After that point, if the attending physician needs to be updated, this should be done on the Remote Client by the clinician. The clinician will need to create an addendum on the most recent Start of Care OASIS or Recertification OASIS, then update M0018 on the Demographics/General Info form:

SN OASIS Start of Care (8/10/2021) - Demographics/General Info
