

Progressing Together:

The Next Phase of HHQI

October 15, 2014 | 2–3pm (ET)

Today' s Presentation

- Welcome
- HHQI 's EDNA Learning and Action Network (LAN)
- The New HHQI CardioLAN
- HHQI University
- Video Best Practice Intervention Packages (BPIPs)
- Q&A and Next Steps

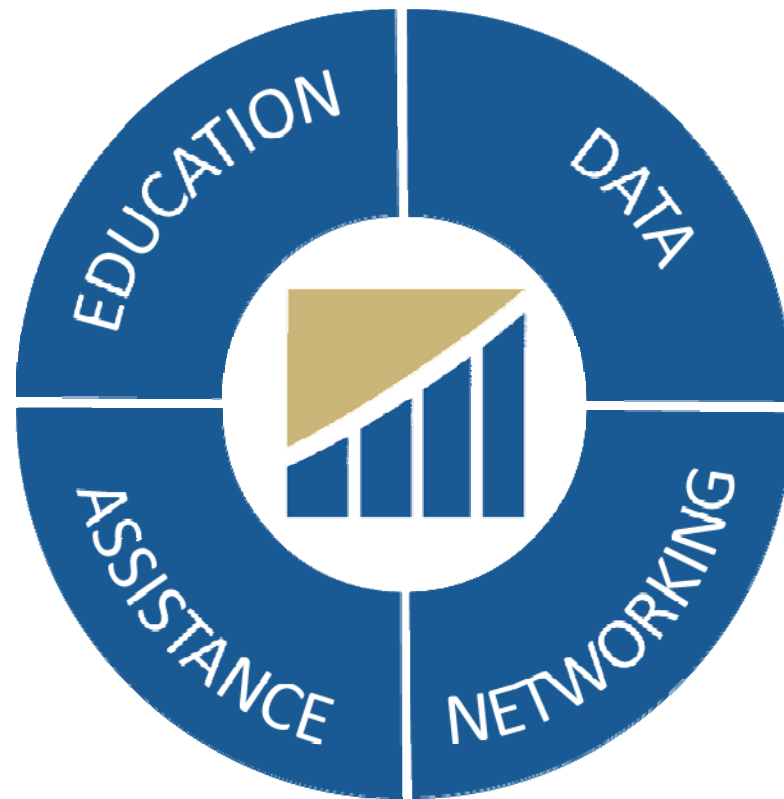

Welcome

Cynthia Pamon, RN, MBA, MSHCAD, CCM

Government Task Leader (GTL), Home Health
Quality Improvement National Campaign, Center
for Clinical Standards and Quality, Quality
Improvement Group, Centers for Medicare &
Medicaid Services (CMS)

The Home Health Quality Improvement (HHQI) National Campaign

- Home health and cross-setting resources
- Four categories:
 - Education
 - Data
 - Networking
 - Assistance

Education

- Best Practice Intervention Packages (BPIPs)
 - Evidence-based
 - Vetted by Technical Expert Panels
 - Targeted to various clinicians
 - Multimedia:
 - PDF document
 - Recorded webinar
 - Podcast
 - Links to more information

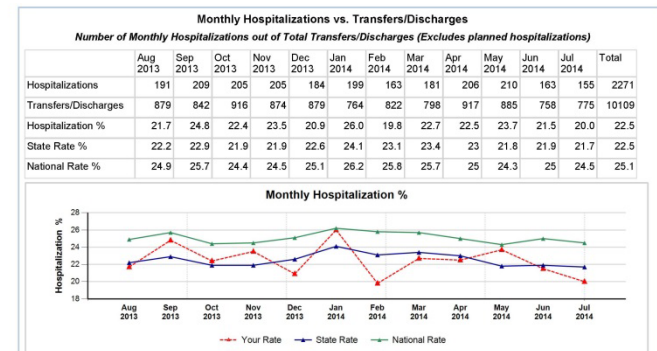

Data

- Individualized reports:
 - Acute Care Hospitalization
 - Oral Medication Management
 - Immunizations
- Securely delivered online
- Updated monthly
- OASIS-based (raw and risk-adjusted)
- Historical trends and target setting

Acute Care Hospitalization Monthly Report

Name: ACH Sample Agency Medicare#: 999999
Location: Any City, PA Report Date: 09/17/2014

Data Source: Data shown is from the OASIS

CONFIDENTIAL

ACH Sample Agency (#999999)

Home Health Cardiovascular Data Registry

Home Health Cardiovascular Improvement Initiative

- Aligns with national Million Hearts[®] initiative
- Focuses on the ABCS of preventive cardiovascular care

Aspirin as appropriate
Blood pressure control
Cholesterol management
Smoking cessation

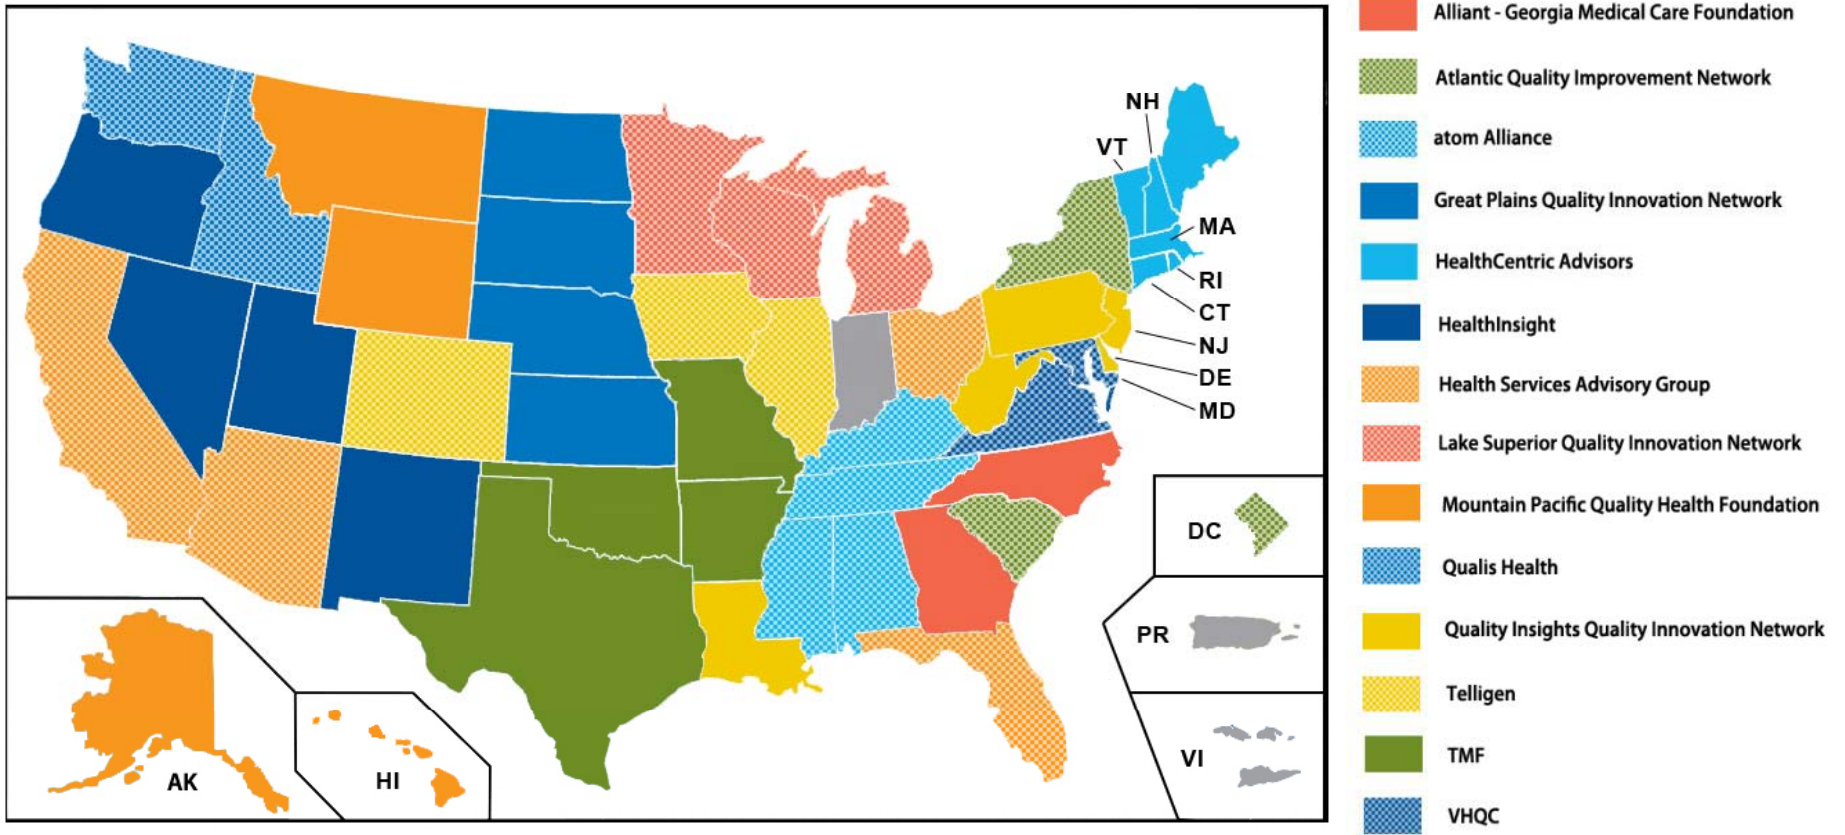

The Million Hearts[®] word and logo marks are owned by the U.S. Department of Health and Human Services (HHS). Use of these marks does not imply endorsement by HHS. Use of the Marks also does not necessarily imply that the materials have been reviewed or approved by HHS.

Networking

- Virtual
 - Social Media
 - Online Sharing Resources
- Grassroots
 - Network Coordinators
 - Quality Innovation Network-
Quality Improvement
Organizations (QIN-QIOs)

11 SOW QIN-QIO Map

**Indiana, Puerto Rico and Virgin Islands awards have not yet been determined.*

Assistance

- HHQInfo response system
 - HHQI@wvmi.org
- Underserved Populations (UP) Network
 - Pioneering project
 - Dual-eligible patients
 - Small, non-profit agencies
 - Health care disparities

Things are Looking UP

- New Focused Best Practice Intervention Package
- New and Archived webinars
- Partnership Development
- **UP**Date e-newsletter
- Inclusion of relevant data in HHQI Data Reports

Cardiovascular Care In The Home

Cardiovascular Disease (CVD) - National

Heart Disease is #1
cause of death

Stroke is #4 cause of
death

1 out of 3 deaths
related to CVD

Greatest contributor
to racial disparity in
life expectancy

Home Health Cardiovascular Data Registry

- Was the patient taking ASA?
- Final BP?
 - Was HTN addressed during this episode?
- Did the patient have a lipid panel in the record?
- Was the patient assessed for tobacco use?
 - Was it addressed?
- Was the patient dually-eligible?

improvement

Direct access to the
HHQI Team

CardioMilestones

1

- Sign-up for the Home Health Cardiovascular Data Registry (HHCDR)

2

- Download all Cardiovascular Best Practice Intervention Packages (BPIPs)
- Complete HHCDR security authentication

3

- Close at least one month of required patients' data in the HHCDR
- Download at least one HHCDR report

4

- Abstract & close a total of six months of required patients' data for HHCDR
- Validate data

5

- Achieve noted improvement in one or more cardiovascular outcomes

Sign Up Today

The image shows a screenshot of the HHQI website. At the top left is the HHQI logo with the text "Home Health Quality Improvement". To the right is a search bar with a "Search" button. Further right is a user login area with "Welcome csun" and "Sign Out" links, and social media icons for Facebook, Twitter, and WordPress. A navigation menu below the header includes "Home", "About Us", "Education", "Data", "Cardiovascular Health", "Network", "Members", "News", "UP", "Registration", and "Webinars". The "Cardiovascular Health" link is circled in yellow. The main banner features the text "The Home Health Quality Improvement Campaign" and "SUPPORTS Million Hearts". On the right side of the banner is a large graphic of a heart with the text "I'm One in a Million Hearts" and a registered trademark symbol.

Home Health Cardiovascular Data Registry

The HHQI National Campaign is supporting the national [Million Hearts®](#) initiative by introducing cardiovascular best practices and data reports to the home health community. At the heart of this new facet of the HHQI National Campaign is the Home Health Cardiovascular Data Registry (HHCDR). We urge you to be part of this groundbreaking effort.

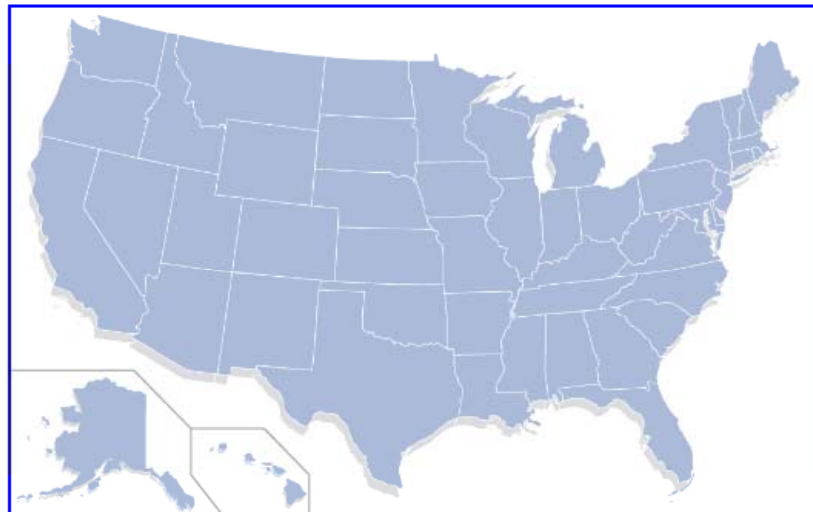

CMS-reporting agencies that actively participate in the HHCDR receive free access to new powerful cardiovascular health reports that are unique to HHQI. These monthly customized reports provide valuable insight into specific opportunities to improve preventive cardiovascular care among an agency's patient population.

Want to learn more about the HHCDR?

- [Download the flyer](#)
- [Visit the FAQ page](#)
- More HHCDR resources coming soon!

More than 700 HHQI participants have already joined the HHCDR. Click on a state or enter search criteria below for a current list.

HHQI Education

Education Formats

- Primary BPIPs
 - Larger more comprehensive
- Focused BPIPs
 - Shorter with key recourses and tools
- Video BPIPs
 - New and coming Spring 2015
- Online education courses
 - On-demand through HHQI University

HHQI University

- Platform for learning with HHQI
 - Monthly educational opportunities beginning early 2015
 - Individuals will register and have access to an evolving catalog of educational topics and opportunities
 - Easy to use
 - Focus on applying best practices for improving patient outcomes
 - Engaging clinicians

Education Audience

Content

- Education will include:
 - Evidence-based integrations practices
 - Key tool(s) and resources
 - Multimedia content
 - Evaluation and post-test
 - Certificate include any available containing education (CEs)

Nursing Continuing Education

- Focus to reach largest discipline providing care to impact direct patient outcomes
- Nursing continuing CEs will be available with some educational courses or opportunities
 - Free and will begin early 2015
 - Not all education will be inclusive of CEs
 - Approved by American Nurses Credentialing Center (ANCC)

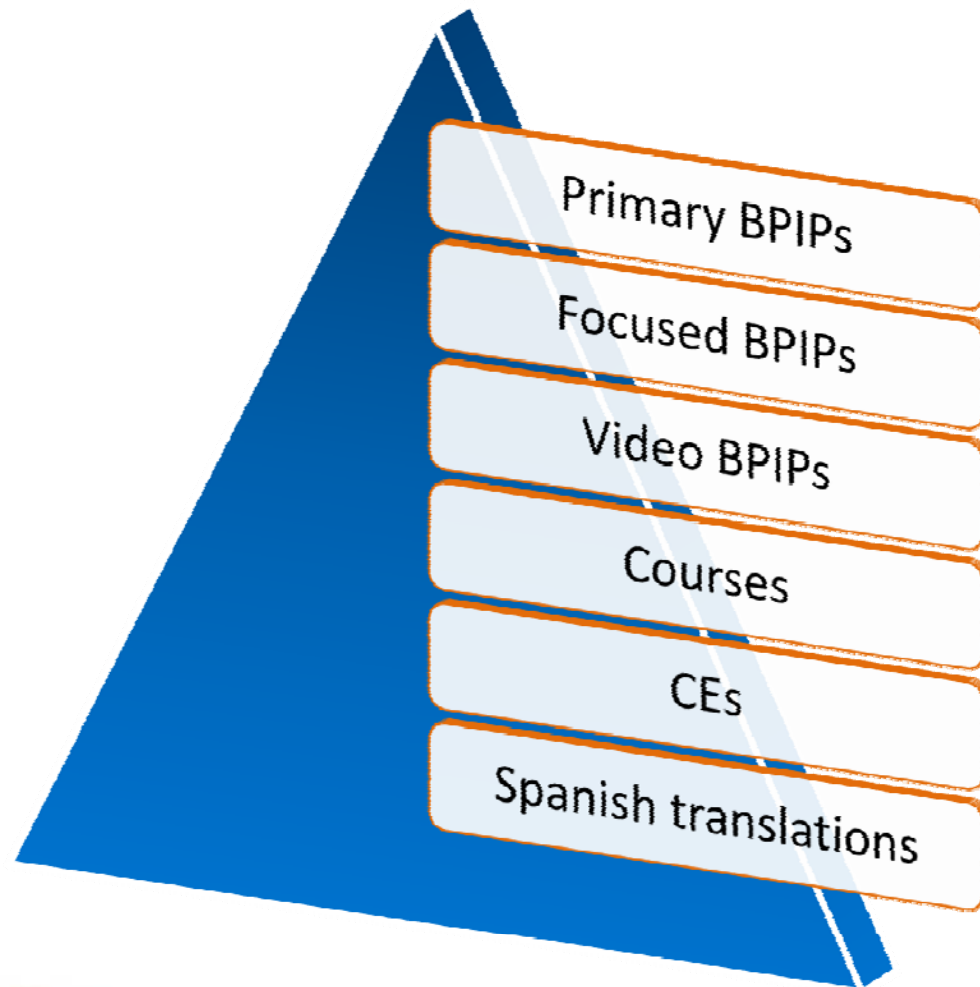

Additional Discipline Education

- **Disciplinary-specific education**
 - Available with BPIPs
 - Majority of educational opportunities will be applicable to therapists
 - Many state or national therapy organizations allow additional educational certificates
 - Social Worker & Home Health Aide education
 - Will be available with BPIPs

Patient Education

- Key tools and/or resources
- Health literate
- Spanish translation version
 - Many tools or patient resources
 - Patient BPIP Videos

HHQI Education

Video BPIPs

Crystal Welch, RN, MSN
HHQI Project Coordinator
Quality Insights Quality Innovation Network

Video BPIPs

- New approach!
- Coming Spring 2015
- Professionally produced short videos
 - Clinician and patient-focused
 - English and Spanish versions
- Multimedia education to reach different learning styles
- Videos play on laptops, tablets, or smartphones

Clinician Video BPIPs

- Concise clinician education
- Convenient (on-demand)
- Clinician focused
 - Short videos about:
 - Key best practices
 - Underserved issues
 - Key tool, if applicable
 - How to integrate into daily practices
 - Post-test
 - Free Nursing continuing education (CEs)

Clinician Video BPIPs

- How to Use
 - Add to agency education plan/activities
 - Supplement current QI project plan
 - Play at staff or team meetings
 - Independently complete post-test
 - Encourage clinicians to independently complete
 - Promote free nursing CEs

Patient Video BPIPs

- Concise patient education
- Convenient (on-demand)
- Patient-focused short videos about:
 - Health issue and effects
 - Key patient best practice strategy
 - Key tool, if applicable
 - Integration patient tips into lifestyle
 - English and Spanish versions

Patient Video BPIPs

- How to Use
 - Encourage clinicians to use them to reinforce verbal or written education
 - Ask clinicians to sit and watch the video with the patient and discuss the content
 - Use teach-back to determine what the patient understood or needs more education
 - Provides a different voice educating on the same content in a visual/auditory way
