

***09/19/16 “CDI Week Webinar: Risk Adjustment Documentation and Coding”***

**The Association of Clinical Documentation Improvement Specialists (ACDIS): Certified Clinical Documentation Specialist (CCDS)**

**Description of CCDS certification**

The Association of Clinical Documentation Improvement Specialists (ACDIS) is a professional organization for clinical documentation improvement specialists.

The Certified Clinical Documentation Specialist (CCDS) certification was created to identify, recognize, and support a high level of experience, proficiency, and know-how among clinical documentation specialists.

For specific information on how to maintain the CCDS, please visit

<http://www.hcpro.com/acdis/certification.cfm>.

**How to receive your continuing education certificate *for the live program***

To obtain a certificate of completion in order to document your continuing education activities for CCDS certification, you must participate in the full program (typically 90 or 120 minutes) and complete the online evaluation by going to:

<http://app.keysurvey.com/f/1064365/406e/>

**Please note:**

To be eligible for CCDS continuing education credits associated with this activity, you will have 14 days from the date of this live program to complete the evaluation in order to receive your certificate of completion. After 14 days, the evaluation for this activity will be closed. A link to your certificate will be emailed to you immediately following your successful completion of the online evaluation.

***Credits for this webcast expire on 9/18/17.***

If you have questions regarding this product or activity, please contact our customer service department at 877-240-6586.
