CMS RAC Program Enhancements

- RACs are required to maintain an overturn rate of less than 10% at the first level of appeal, excluding claims that were denied due to no or insufficient documentation or claims that were corrected during the appeal process.
- RACs are required to maintain an accuracy rate of at least 95%. Failure to maintain an accuracy rate of 95% will result in a progressive reduction in ADR limits.
- RACs are required to have a Contractor Medical Director and are encouraged to have a panel of specialists available for consultation. In addition, physicians are afforded the opportunity to discuss the improper payment identification with the Contractor Medical Director, who is a physician.
- CMS required the RACs to provide consistent and more detailed review information concerning new issues to their websites as well as broaden their review topics to include all claim/provider types, and will be required to review certain topics based on a referral, such as an OIG report.
- CMS instructed the RACs to incrementally apply the additional documentation request (ADR) limits to new providers under review and revised the ADR limits for facility claims. The limits are diversified across all claim types of a facility (e.g., inpatient, outpatient).
- RACs will have 30 days to complete complex reviews and notify providers of their findings.
- RACs must wait 30 days to allow for a discussion request before sending the claim to the MAC for adjustment.

Process for Approval of New Issues

To ensure that the RAC is making accurate claim determinations all reviews must receive CMS approval prior to proceeding with widespread reviews.

- Performant compiles required information supporting improper payment concepts to CMS for review and approval.
- “New Issue” packets are reviewed by CMS to verify audit concepts and ensure all supporting documentation is relevant and accurate prior to approving. Incomplete or incorrect new issue submissions are returned for correction or outright rejected.
- Information submitted may include and is not limited to the following elements.
 - Issue description
 - Provider type
 - Error type
 - CMS policy references
 - Codes for review
 - Edit parameters
 - Dates and states requested for review
 - Good cause for claim reopening
 - Improper payment rationale
 - Claim samples

Approved New Issues are posted to Performant Recovery’s Provider Portal as well as CMS.gov.

Medical Record Request (ADR) Limits for Institutional Providers

Additional Documentation Limits for Institutional Providers can be found at

<https://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/Medicare-FFS-Compliance-Programs/Recovery-Audit-Program/Downloads/Institutional-Provider-Facilities-ADR-Limits-May-2016.pdf>

- CMS will calculate each provider's ADR limit and will provide the limits to the RAC's. Examples of how the ADR limits are calculated can be found in the link above.
- The annual ADR Limit will be **one-half of one percent** (0.5%) of the provider's total number of paid Medicare claims from the previous year. The number of paid claims is determined by the 6-digit **CMS Certification Number (CNN)** and the provider's **National Provider Identifier (NPI)** number.
- For Institutional claims, ADR limits will be diversified across all claim types based on type of bill (TOB) and limited to no more than a 3-year look-back period from claim paid date based on using the .5% non adjusted baseline criteria.
- ADR letters are sent on a 45-day cycle. The annual ADR Limit will be divided by 8 to establish the ADR cycle limit, which is the maximum number of claims that can be included in a single 45-day period. Although the Recovery Auditors may go more than 45 days between record requests, in no case shall they make requests more frequently than every 45 days.

Medical Record Request (ADR) Limits

Additional Documentation Limits for Physician/Non-Physician Practitioner can be found at:

<https://www.cms.gov/Research-Statistics-Data-and-Systems/Monitoring-Programs/Medicare-FFS-Compliance-Programs/Recovery-Audit-Program/Downloads/PhyADR.pdf>

The limits will be based on the servicing physician or non-physician practitioner’s billing Tax Identification Number (TIN), as well as the first three positions of the ZIP code where that physician/non-physician practitioner is physically located.

Additionally, ADR limits will be based on the number of individual rendering physicians/non-physician practitioners reported under each TIN/ZIP combination in the previous calendar year.

Group/Office Size	Maximum number of requests per 45 days
50 or more	50 records
25-49	40 records
6-24	25 records
Less than 5	10 records

Recovery Auditors look-back period is not to exceed a 3-year look-back period. Examples of how the ADR limits are calculated can be found in the link above.

DMEPOS Suppliers

- **Durable Medical Equipment (DME) Suppliers (*as of April 4, 2013*)**
 - uses Tax Identification Number (TIN)
 - set at 10% of all claims submitted for the previous full calendar year
 - cap set at 250 ADRs per 45 days; no minimum
- **Prosthetists/Orthotists (*as of April 4, 2013*)**
 - Uses TIN
 - specialty codes 51, 52, 53, 55, 56 or 57 only
 - Cap set at 10 ADRs per 45 days; no minimum

Additional Documentation Request (ADR) Letter PERFORMANT

Send requested documentation to support review of claim(s)

- Performant will request both specific items and the complete record for review. To avoid unnecessary delays and potentially incorrect findings submit ALL documentation to support the billing and coding of the claims under review.
- You may submit records via esMD, CD/DVD, or paper. It is important that providers **send one, complete submission** of records as the audit timeframe begins upon receipt of any record related to the review. Do NOT send multiple submission of records.
- To avoid unnecessary delays, if there are questions or problems with locating the complete record set please contact Customer Service for assistance.

Medical Record Submissions

You may submit requested documentation via:

- **esMD**
- or
- **by postal mail**
 - either as images on CD/DVD or
 - on paper

Electronic Submission of Medical Documentation (esMD) – preferred method

CMS offers Providers an automated mechanism for submitting medical documentation via an Health Information Handler (HIH)

- The esMD system allows providers and HIHs to electronically send their responses to Additional Documentation Request (ADR) letters to review contractors during the claims review process.
- One of the benefits of using esMD is that it can help mitigate late submissions and potential technical denials.
- Performant cannot recommend a HIH, however there are several HIH's available to offer esMD gateway services to Providers.
- More information is available at this CMS.gov link. It includes list of HIH vendors and how to contact them (see related links within the website):

https://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/ESMD/Which_HIHs_Plan_to_Offer_Gateway_Services_to_Providers.html

Medical Record Submission via CD/DVD or Paper:

- If submitting via paper or CD/DVD a copy of the Bar Code Sheet(s) must be affixed to the requested documentation.
- **Please bundle documents for each claim separately to enable us to confirm receipt of documents.**

Medical Record Submission via CD/DVD:

Include a copy of the Bar Code Sheet(s) with CD/DVD package

- Multiple charts can be sent on one CD/DVD but each chart request must be a separate PDF/TIFF file and named appropriately.
- Naming Convention for each claim submitted is: NPI#-Claim#
Example:
 - Claim number is 123456
 - NPI is 654321
 - file name is 654321-123456
- Scanned image resolution must be clear & legible - 300 dpi and in black and white Image format must be in either PDF or TIFF format (PDF is preferred)
 - For PDF format, DO NOT password protect the INDIVIDUAL PDF files.
 - Instead, zip all PDFs into a WinZip file and encrypt it.
- CD/DVDs do not require encryption but it is recommended for security purposes. If encryption/password protection is desired, the following common WinZip options are accepted:
 - Zip 2.0 compatible encryption
 - 256-Bit AES encryption
- If a password is required to open a zipped CD/DVD please submit that password to Performant Recovery, prior to shipment, via the method below.
 - E-mail password to: info@performantRAC.com
 - Email must include letter request id and claim number for identification.

Medical Record Submission via Paper:

- **Include a copy of the Bar Code Request Sheet(s)**
- Use standard 8 ½ X 11 paper
- 3 hole punched paper will not be accepted
- No staples or staple holes
- Each chart should be individually secured with a rubber band or paper clip
- Photocopy must be of good quality and legible
- Records must be copied on only one side
- Pages should be top faced and face up

Mailing Records

Documentation may be mailed to:
Performant Recovery, Inc.
Records Department
2751 Southwest Boulevard
San Angelo, TX 76904

If mailed, it is strongly recommended all medical records be sent to via a traceable carrier such as FedEx, UPS, DHL, registered USPS mail, in a tamper-proof, padded package.

Medical Record Payment

The CMS Program Integrity Manual (PIM) section 3.2.3.6. provides guidance to the RACs on the reimbursement for Medical Records

- Per guidance from CMS, PIM section 3.2.3.6 does not apply to DMEPOS Suppliers, therefore Performant is not required to reimburse DMEPOS Suppliers for Medical Records.
- For Home Health and Hospice Providers reimbursement for medical records submission costs is defined as follows:
 - 0.12 cents per page, plus first class postage, for reproduction of PPS provider records
 - 0.15 cents per page, plus first class postage, for reproduction of non-PPS institutions and practitioner records
 - Providers (such as critical access hospitals) under a Medicare reimbursement system receive no photocopy reimbursement
 - An additional \$2 is added for esMD submissions per case in lieu of postage
 - **The maximum payment to a provider per medical record shall not exceed \$25.**
- Performant will track record submissions and issue a check within 45 days of the record submission. There is no requirement to invoice.

RAC Audit Guidelines

The RAC shall comply with all NCDs, national coverage/coding articles, LCDs, local coverage/coding articles, and provisions in Internet Only Manuals, such as the Claims Processing Manual and the PIM. NCDs, LCDs, and coverage/coding articles can be found in the Medicare Coverage Database at <http://www.cms.gov/medicare-coverage-database/>.

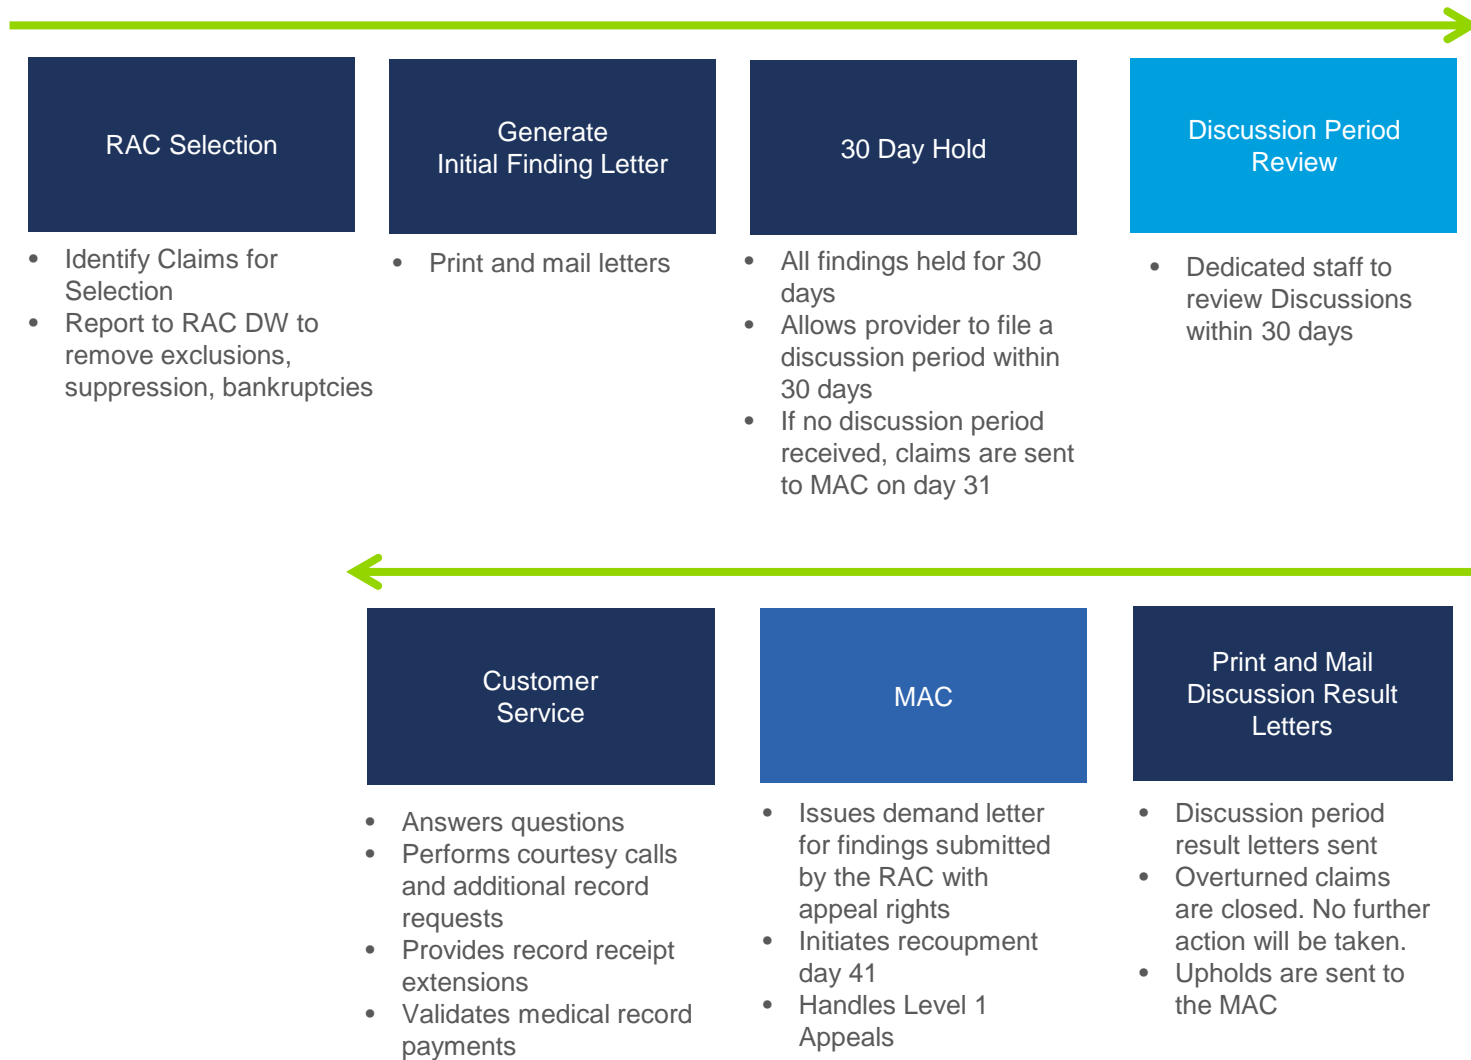

Internet Only Manuals can be found at <http://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Internet-Only-Manuals-IOMs.html>. In addition, the RAC shall comply with all applicable change requests and Technical Direction Letters forwarded to the RAC by the CMS COR.

The RAC shall not apply any policy retroactively to claims processed prior to the effective date of the policy. The RAC shall ensure that policies utilized in making a review determination are applicable at the time the service was rendered.

The RAC shall clearly document the rationale for the review determination. This rationale shall include a detailed description of the Medicare policy or rule that was violated and a statement as to whether the violation resulted in an improper payment. The RAC shall ensure they are identifying pertinent facts contained in the medical record/documentation to support the review determination. Each rationale shall be specific to the individual claim under review and shall be included in the review results letter sent to the provider.

Discussion Period

Purpose:

- Provides an opportunity for the Provider to submit additional information if you disagree with the review determination.
- RAC takes into consideration additional information, re-Audits the account, and either upholds or overturns the original decision.
- One benefit of filing a Discussion period is that if the decision is overturned, the RAC will not send an adjustment to the MAC. No further action will be required on your part.

Timeframe:

- Provider has 30-calendar days to submit a request for a Discussion Period.
- The 30-day period begins from the date of the Review Results letter.
 - For Automated reviews it's the Initial Findings Letter ("IFL")
 - For Complex review it's the Review Results Letter ("RRL")
- The Discussion Period request is acknowledged via the provider portal within 1 day.
- The RAC has 30-days from receipt of the Discussion Period request to respond to the provider.
- Providers will be notified of the Discussion period review outcome via a letter and the provider portal will be updated to reflect the date and outcome of the Discussion review decision.
 - If the audit is overturned in the providers favor, the audit is closed and no further action will be required on your part. If the audit decision is upheld, the MAC is notified and a demand letter will be mailed by the MAC.
 - If you disagree with the Discussion decision, you can file an appeal to the MAC for Reconsideration. You have 120 days from the date of Demand letter to file an appeal.

Request to Open Discussion Period
 Region 5 Recovery Auditor Contractor (RAC)

Discussion Request Form:

- The Discussion Period request form is posted on the Performant Recovery website.
- Fill out the form and include the reason that you would like to discuss the case.
- There must be one Discussion form submitted per claim (no bundling claims on one form due to scanning processes).
- Attach supporting documentation for reconsideration.
- Indicate on the form if a physician-to-physician review is requested. If so, you will receive a call from the Discussion team to schedule the conference. A physician employed by the provider does not include those providers employed as consultants.
- Mail or fax the form to Performant.
- Acknowledgment of the Discussion request occurs when the form is scanned into the Performant system. This acknowledgement is viewable via your provider portal login. We strongly recommend you check for this verification of receipt.

Appeals

Process Overview

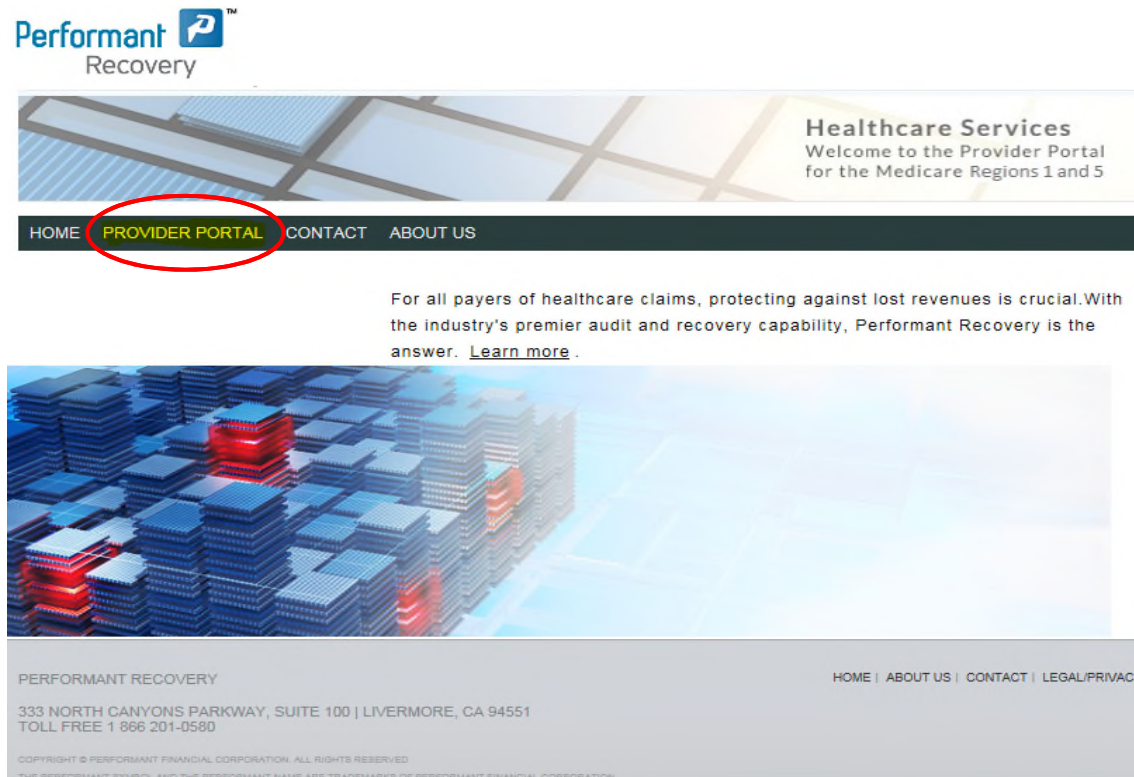

- Providers do not always have to file an Appeal. You are encouraged to file a Discussion prior to an Appeal.
 - This gives the RAC the opportunity to evaluate the original determination
 - If the review determination is to overturn the finding, no further action will be taken
 - It lessens the administrative burden for both you and your Medicare Administrative Contractor
- If the Provider feels the RAC determination to uphold a decision during the Discussion period was not sufficient, the Provider has the right within the specified timeframe to file an Appeal.
- MAC's manage the Appeals process. The timeframes are clearly defined in the Demand Letter a Provider receives from the MAC.

Provider Contact Information

Basic Tips:

- Always update the contact information as soon as a change occurs; address, point of contact person/department, phone, email, etc.
- Incorrect contact information could result in misrouting of RAC-related letters (ADR, Review Results, Initial Finding Letters, etc.)
- Make sure your organization agrees on and communicates internally who the contact person should be for the Provider Portal login and ensure this person registers as your single Point of Contact.
- Contact information should only be sent in writing via the web site, e-mail or fax. We do not accept verbal address changes.
- MAC sends the Demand Letter (*and any related documents*) to the address they utilize for all MAC correspondence, which may be different than the RAC customized address you provided to Performant. Please work with your MAC to keep your addresses updated.
